

OTHER RELEVANT EVENTS

At the end of the third quarter of 2023, Banca Afirme has an asset level of 264,763.5 million pesos, showing an increase of 133.8% against the same period of the previous year. This increase is impacted by the increase in repo debtors as a result of a change in accounting standards where repo debtors are presented without offsetting their counterpart, which increases both total Assets and Liabilities.

Capitalization

The Capitalization Index of Banca Afirme was at 15.42% at the end of the third quarter of 2023 with a basic capital index of 11.65%.

Issuance of Subordinated Bonds

At the Extraordinary General Shareholders' Meeting held on March 17, 2020, the Shareholders agreed to carry out an issue of non-preferred, non-convertible subordinated capital obligations of the Bank, obtaining authorization from the Central Bank for their issuance through official letter 153/12258/2020. On September 14, 2022, the subordinated debentures were issued through a public offering of 4,025,000 subordinated debentures, considering that the Issuer exercised its over-allotment right for 525,000 subordinated debentures, with a nominal value of Ps. 100.00 each, bearing interest at a TIIE rate for a term of up to 28 days.00 pesos each, bearing interest at a TIIE rate for a term of up to 28 days, this issue is unsecured, the interest payment period is every 28 days and maturity will be in September 2032. This issuance was for \$403. The proportion of the authorized amount of subordinated obligations to the issued amount was 100%.

At the end of the third quarter of 2023, the subordinated obligations program has a balance of 3,364.8 million pesos.

Dividends to Banking

On July 19, 2023, Banca Afirme receives dividends from Círculo de Crédito for 6.9 million pesos.

CERTIFICATION

"The undersigned declare under protest of saying the truth that, within the scope of our respective functions, we prepare the information regarding Banca Afirme contained in this annual report, which, to the best of our knowledge and belief, reasonably reflects its situation. Likewise, we declare that we are not aware of relevant information that has been omitted or falsified in this annual report or that it contains information that could mislead investors".

INTERNAL CONTROL

Banca Afirme is subject to an Internal Control System in which its objectives, policies and guidelines are set and approved by the Board of Directors, through a common and homogeneous methodology that is in accordance with the General Provisions Applicable to Credit Institutions in Mexico (CUB) instructed by the National Banking and Securities Commission.

The scope of the Internal Control System establishes the implementation of operating mechanisms, according to the strategies and purposes of the entity, allowing to provide reasonable security for its management processes, as well as for its registration procedures, data automation, and administration of risks.

The different functions and responsibilities between its corporate bodies, administrative units and its staff are focused on ensuring efficiency and effectiveness in carrying out activities and allow the identification, management, monitoring and evaluation of risks that may arise in the development of the corporate purpose and have As an institutional premise, mitigate possible losses or contingencies that may be incurred.

Likewise, measures and controls were implemented so that the financial, economic, accounting, legal and administrative information is correct, accurate, complete, reliable and timely in order to contribute to the strict compliance with the applicable regulations and standards and to contribute to the proper decision making.

The objectives and guidelines of the Internal Control System are reviewed and documented by the Comptroller's area and submitted at least once a year by the Board of Directors through the analysis and evaluation of the quarterly reports formulated by the General Management and by the Audit Committee.

EXCESS RESERVES BALANCE						-\$85
						\$2,376

NOTES:

- 1.- The figures for the rating and constitution of preventive reserves are those corresponding to the last day of the month referred to in the balance sheet as of September 30, 2023.
- 2.- The loan portfolio is rated according to the methodology established by the National Banking and Securities Commission in Chapter V of Title Two of the General Provisions applicable to credit institutions, and may be rated by internal methodologies authorized by the Commission itself.
 The Institution uses the rating methodologies established by the CNBV.
 Credit institutions use risk grades: A-1; A-2; B-1; B-2; B-3; C-1; C-2; D and E, for the purposes of grouping loan-loss reserves according to the type of portfolio and the percentage that the reserves represent of the unpaid balance of the credit, which are established in Section Five "On the constitution of reserves and their classification by degree of risk", contained in Chapter V of Title Two of the aforementioned provisions.
- 3.- The base loan portfolio for the rating includes contingent operations that are shown in the corresponding group of memorandum accounts at the bottom of the balance sheet.
- 4.- The excess of preventive reserves constituted by \$ 85', correspond to reserves derived from operational risks, additional reserves for interest on overdue loans, other overdue debts and reserves for specific cases.

XVI.-Principal characteristics of the issuance or redemption of long-term debt.

QAFIRME15

At the Extraordinary General Shareholders' Meeting held on February 4, 2015, the Shareholders agreed to issue non-preferred capital subordinated bonds, perpetual and susceptible to be converted into shares at the Bank's option, obtaining authorization from the Central Bank for their Issuance through official letters OFI/S33-001-12465 and OFI/S33-001-12722 dated January 21, 2015, and February 3, 2015, correspondingly. The issuance of the bonds was carried out through a private offer for up to 11,000,000 subordinated bonds with a face value of \$100 pesos each, which accrue interest at a TIIE + 4.0% rate, this issuance is not guaranteed, the interest payment period is every three months, it has no maturity date. Said issuance was for an amount of \$ 800, the proportion of the authorized amount of subordinated bonds compared to the amount issued was 73%.

QBAFIRME18

At the Extraordinary General Shareholders' Meeting held on October 1, 2018, the Shareholders agreed to carry out an issue of non-preferred subordinated capital bonds not convertible into shares, obtaining authorization from the Central Bank for their issuance through official letter OFI/033-24335. The issuance of the bonds was carried out through a public offering of up to 12,000,000 subordinate bonds with a face value of \$100 pesos each, which earn interest at a TIIE + 2.8% rate, this issuance is not secured, the interest payment period is every 28 days and its maturity will be in September 2028. Said issuance was for an amount of \$ 1,200, the proportion of the authorized amount of the subordinated obligations compared to the amount issued was 100%.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

QBAFIRME20

At the Extraordinary General Shareholders' Meeting held on March 17, 2020, the Shareholders agreed to carry out an issue of non-preferred, non-convertible subordinated capital bonds, obtaining authorization from the Central Bank for their issuance through official letter 153/12258/2020. Through an issuance act dated March 24, 2020, it was carried out through a public offer of up to 5,000,000 subordinated obligations with a nominal value of \$100.00 pesos each, which accrue interest at a TIIE + 2.8% rate, this issue is not guaranteed, the interest payment period is every 28 days and its maturity will be in March 2030. Said issuance was for an amount of \$ 500, the proportion of the authorized amount of the subordinated bonds compared to the amount issued was 100%.

QBAFIRME20-2

At the Extraordinary General Shareholders' Meeting held on March 17, 2020, the Shareholders agreed to carry out an issue of non-preferred, non-convertible subordinated capital bonds, obtaining authorization from the Central Bank for their issuance through official letter 153/12258/2020. Through an issuance deed dated October 22, 2020, a public offer was carried out for up to 2,300,000 subordinated bonds with a nominal value of \$100.00 pesos each, which accrue interest at a TIIE + 2.8% rate. This issuance is not guaranteed, the interest payment period is every 28 days and its maturity will be in October 2030. Said issuance was for an amount of \$ 230, the proportion of the authorized amount of subordinated bonds compared to the amount issued was 100%.

QBAFIRME22

At the Extraordinary General Shareholders' Meeting held on March 17, 2020, the Shareholders agreed to carry out an issuance of non-preferential subordinated capital bonds that cannot be converted into shares, obtaining authorization from the Central Bank for their issuance through document 153/12258/2020. By means of the act of issue dated February 15, 2022, the subordinated obligations were issued through a public offer for up to 2,012,500 subordinated obligations with a nominal value of \$ 100.00 pesos each, which accrue interest at a TIIE rate of 28 days + 2.8%, this issue is not guaranteed, the interest payment period is every 28 days and its maturity will be in February 2032. This issuance was for an amount of \$201, and the ratio of the authorized amount of subordinated debentures to the amount issued was 100%.

QBAFIRME22-2

At the Extraordinary General Shareholders' Meeting held on March 17, 2020, the Shareholders agreed to carry out an issue of non-preferred, non-convertible subordinated capital obligations of the Bank, obtaining authorization from the Central Bank for their issuance through official letter 153/12258/2020. On September 14, 2022, the subordinated debentures were issued through a public offering of 4,025,000 subordinated debentures, considering that the Issuer exercised its over-allotment right for 525,000 subordinated debentures, with a nominal value of Ps. 100.00 each, bearing interest at a TIIE rate for a term of up to 28 days.00 pesos each, bearing interest at a TIIE rate for a term of up to 28 days, this issue is unsecured, the interest payment period is every 28 days and maturity will be in September 2032. This issuance was for \$403. The proportion of the authorized amount of subordinated obligations to the issued amount was 100%.

As of September 30, 2023 and 2022, the amount placed from the current issues in the category of "Outstanding subordinated obligations" amounts to \$3,365 and 3,346, respectively, which include accrued interest pending payment of \$39 and \$31 and include issuance costs and expenses to be amortized, which amount to \$8 and \$8, respectively.

As of September 30, 2023, the subordinated obligations are registered in the consolidated Financial Situation Statement under the item "Subordinated obligations in circulation", which have the option of prepayment from the fifth year and have, among others, the following characteristics:

- I.- They are bearer titles.
- II.- Coupons will not be attached for the payment of interest and the issue will be backed by a single bearer security.
- III.- They meet the requirements and contain the mentions referred to in articles 63 and 64 of the LIC, as well as the provisions of Circular 2019/95 and in the Capitalization Rules.
- IV.- They confer the Bondholders corresponding to this issue equal rights and obligations.
- V.- They enjoy executive action against the issuer, upon request for payment before a notary public.

As of September 30, 2023, the subordinated obligations do not have a discount rate or premium.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

XVII.- The consolidated financial statements are prepared based on banking legislation and in accordance with the accounting criteria for credit institutions in Mexico (the Accounting Criteria) established in Annex 33 of the Provisions, and the applicable operating rules, established by the Commission, which is responsible for the inspection and surveillance of credit institutions and reviews their financial information.

The Accounting Criteria establish that the accounting of credit institutions must conform to the basic structure of the Financial Reporting Standards (NIF) defined by the Mexican Council of Financial Information Standards, A.C. (CINIF) in NIF A-1 "Structure of Financial Reporting Standards", first considering the NIFs contained in the NIF A Series "Conceptual Framework", as well as what is established in Accounting Criterion A-4 "Supplementary Application to Accounting Criteria". Likewise, they establish that institutions must observe the accounting guidelines of the NIF except when necessary, at the discretion of the Commission, to apply a specific regulation or accounting criteria on the recognition, valuation, presentation, and disclosure applicable to specific items of the financial statements and those applicable to their preparation.

XVIII.- Activity and outstanding operations-

Banca Afirme, S. A., Multiple Banking Institution, Afirme Financial Group (the "Bank") was incorporated under Mexican laws domiciled at Av. Juarez No. 800 Sur, Zona Centro, Monterrey, N. L. The Bank is a 99.99% subsidiary of Afirme Grupo Financiero, S. A. de C. V. ("Grupo Afirme") and based on the Law of Credit Institutions ("LIC"), is authorized to carry out multiple banking operations, which include, among others, the acceptance and granting of credits, the collection of deposits, the making of investments in financial instruments, the operation of repurchase agreements and financial derivative instruments and the execution of trust contracts, among others. Their activities are regulated by the Bank of Mexico ("Central Bank") and by the National Banking and Securities Commission (the "Commission").

Some relevant regulatory aspects require the Bank to maintain a minimum capitalization ratio in relation to the market and credit risks of its operations, compliance with certain limits on acceptance of deposits, obligations and other types of funding that can be denominated in foreign currency, as well as the establishment of minimum limits of paid capital and capital reserves.

The two subsidiaries of the Bank in whose capital stock it participates 99.976% and 99.99%, respectively, are described below:

- Arrendadora Afirme, S. A. de C. V., Sociedad Financiera de Objeto Múltiple, Regulated Entity, Afirme Grupo Financiero (the "Leasing Company") (99.976% stake), dedicated to the execution of financial and operational leasing contracts

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

of movable and immovable property, acceptance and granting of credit, making investments and financial instruments.

- Fondos de Inversión Afirme, S. A. de C. V., Investment Fund Operating Company (the "Operator") (99.99% stake), which is engaged in the provision of asset management services, distribution, valuation, promotion and acquisition of shares issued by Investment Funds, as well as the deposit and custody of assets subject to investment of shares of investment funds, among others.

The Bank has entered into a liability agreement in accordance with the provisions of the Law to Regulate Financial Groupings ("LRAF"), through which Grupo Afirme undertakes to be unlimitedly liable for compliance with the obligations of its subsidiaries, as well as for the losses that may be generated in your case.

XIX.- Summary of the main accounting policies-

The accounting policies shown below have been uniformly applied in the preparation of the consolidated financial statements presented, and have been consistently applied by the Bank.

The CINIF has issued the NIF and Improvements mentioned below:

NIF-B-14 Profit per Share - Comes into effect for the exercises that start from the 1st. from January 2023 allowing its early application. Make precision for the determination of earnings per share (EPS). The Administration estimates that the adoption of this new IFRS will not generate significant effects.

Improvements to the NIF 2023

In December 2022, the CINIF issued the document called "Improvements to the NIF 2023", which contains specific amendments to some existing NIFs. The main improvements that generate accounting changes are those mentioned on the following page.

NIF B-11 Disposition of Long-term Assets and Discontinued Operations/ NIF C-11 Equity - Comes into effect for fiscal years beginning from the 1st. from January 2023, allowing its early application. Any change that is generated must be recognized in accordance with NIF B-1 *Accounting Changes and Error Correction*. This improvement stipulates that any difference between the book value of long-term assets delivered to settle dividends or capital refunds, must be recognized in retained earnings.

"NIF B-15 Foreign Currency Conversion" - Comes into effect for exercises starting from the 1st. from January 2023, allowing its early application. Any change that is generated must be recognized in accordance with NIF B-1 *Accounting Changes and Error Correction*. Make modifications to the practical solution of the NIF that allows the preparation of consolidated financial statements without the effects of conversion to functional currency.

This improvement specifies which entities and in which cases this option can be exercised, establishing that an entity that does not have subsidiaries or a parent company, or that is a subsidiary, associate or joint business, can prepare its consolidated financial statements without making the conversion to functional currency, as long as it is exclusively for tax and legal purposes and does not have users who require the preparation of consolidated financial statements considering the effects of the conversion to functional currency.

The mentioned improvements did not generate effects on the financial information as of January 1, 2023.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

XX.- The Capitalization Index for the third quarter of 2023 is presented below, as well as the assets subject to credit and market risk, in order to comply with the General Provisions Applicable to the institution.

ANNEX 1-O

Figure in millions of pesos as of September 30, 2023
(figures before replicas with Bank of Mexico)

TABLE I.1 Capital integration disclosure format without considering the transitional period in the application of regulatory adjustments

Reference	Common Equity Tier 1 (CET1): Instruments and Reserves	Amount
1	Common shares that qualify for Tier 1 common capital plus their corresponding premium	3,918.63
2	Results of past exercises	3,214.29
3	Other elements of comprehensive income (and other reserves)	1,808.69
4	Capital subject to phase-out of Tier 1 common equity (only applicable for companies that are not linked to shares)	Not applicable
5	Ordinary shares issued by subsidiaries held by third parties (allowed amount in common equity level 1)	Not applicable
6	Tier 1 common capital before regulatory adjustments	8,941.61
Tier 1 Common Capital: Regulatory Adjustments		
7	Prudential valuation adjustments	Not applicable
8	Commercial Credit (net of its corresponding deferred income taxes charged)	0.00
9	Other intangibles other than rights for mortgage services (net of their corresponding deferred income taxes payable)	319.46
10 (conservative)	Deferred income taxes in favor that depend on future earnings, excluding those derived from temporary differences (net of deferred income taxes payable)	
11	Result from valuation of cash flow hedging instruments	0.00
12	Reserves pending to constitute	0.00
13	Benefits on the remainder in securitization operations	
14	Gains and losses caused by changes in the own credit rating on liabilities valued at fair value	Not applicable
15	Defined benefit pension plan	
16 (conservative)	Investments in treasury shares	
17 (conservative)	Reciprocal investments in ordinary capital	
18 (conservative)	Investments in the capital of banks, financial institutions and insurance companies outside the scope of regulatory consolidation, net of eligible short positions, where the Institution does not have more than 10% of the issued capital stock (amount that exceeds the 10% threshold)	

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

19 (conservative)	Significant investments in common shares of banks, financial institutions and insurance companies outside the scope of regulatory consolidation, net of eligible short positions, where the Institution owns more than 10% of the issued share capital (amount that exceeds the 10% threshold)	
20 (conservative)	Mortgage servicing fees (amount exceeding the 10% threshold)	
21	Deferred income taxes in favor from temporary differences (amount exceeding the 10% threshold, net of deferred taxes payable)	237.31
22	Amount exceeding the 15% threshold	Not applicable
23	Of which: Significant investments where the institution owns more than 10% in common shares of financial institutions	Not applicable
24	Of which: Rights for mortgage services	Not applicable
25	Of which: Deferred income taxes in favor derived from temporary differences	Not applicable
26	National regulatory adjustments	457.38
TO	Of which: Other elements of comprehensive income (and other reserves)	438.56
B	Of which: Investments in subordinated debt	
C	Of which: Profit or increase in the value of assets due to the acquisition of securitization positions (Originating Institutions)	
D	Of which: Investments in multilateral organizations	
E	Of which: Investments in related companies	
F	Of which: Venture capital investments	
G	Of which: Investments in mutual funds	18.83
H	Of which: Financing for the acquisition of own shares	
I	Of which: Operations that contravene the provisions	
J	Of which: Deferred charges and advance payments	
K	Of which: Positions in First Loss Schemes	
L	Of which: Employee Participation in Deferred Profits	
M	Of which: Relevant Related Persons	
N	Of which: Defined benefit pension plan	
OR	Of which: Adjustment for capital recognition	
27	Regulatory adjustments applied to Tier 1 common capital due to insufficient additional Tier 1 capital and Tier 2 capital to cover deductions	
28	Total regulatory adjustments to Tier 1 common capital	1,814.16
29	Common Equity Tier 1 (CET1)	7,127.45
Additional Tier 1 Capital - Instruments		
30	Directly issued instruments that qualify as additional Tier 1 capital, plus your premium	
31	of which: Classified as equity under the applicable accounting criteria	
32	of which: Classified as liabilities under the applicable accounting criteria	Not applicable
33	Directly issued capital instruments subject to phase-out of additional Tier 1 capital	
34	Additional Tier 1 capital instruments issued and Tier 1 common equity instruments not included in line 5 that were issued by subsidiaries held by third parties (allowed amount in additional level 1)	Not applicable
35	Of which: Instruments issued by subsidiaries subject to phase-out	Not applicable
36	Additional Tier 1 capital before regulatory adjustments	0.00

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Additional Tier 1 Capital: Regulatory Adjustments		
37 (conservative)	Investments in equity instruments of additional Tier 1 capital	Not applicable
38 (conservative)	Investments in reciprocal shares in additional Tier 1 capital instruments	Not applicable
39 (conservative)	Investments in the capital of banks, financial institutions and insurance companies outside the scope of regulatory consolidation, net of eligible short positions, where the Institution does not have more than 10% of the issued capital stock (amount that exceeds the 10% threshold)	Not applicable
40 (conservative)	Significant investments in the capital of banks, financial institutions and insurance companies outside the scope of regulatory consolidation, net of eligible short positions, where the Institution owns more than 10% of the issued share capital	Not applicable
41	National regulatory adjustments	
42	Regulatory adjustments applied to additional Tier 1 capital due to insufficient Tier 2 capital to cover deductions	Not applicable
43	Total regulatory adjustments to additional Tier 1 capital	0.00
44	Additional Tier 1 Capital (AT1)	0.00
45	Tier 1 capital (T1 = CET1 + AT1)	7,927.45
Tier 2 capital: instruments and reserves		
46	Directly issued instruments that qualify as Tier 2 capital, plus your premium	
47	Directly issued equity instruments subject to phase-out from Tier 2 capital	2,564.77
48	Tier 2 capital instruments and Tier 1 common equity instruments and Tier 1 additional capital that have not been included in lines 5 or 34, which have been issued by subsidiaries held by third parties (amount allowed in complementary capital level 2)	Not applicable
49	of which: Instruments issued by subsidiaries subject to phase-out	Not applicable
50	Reserves	
51	Tier 2 capital before regulatory adjustments	2,564.77
Tier 2 capital: regulatory adjustments		
52 (conservative)	Investments in own Tier 2 capital instruments	Not applicable
53 (conservative)	Reciprocal investments in Tier 2 capital instruments	Not applicable
54 (conservative)	Investments in the capital of banks, financial institutions and insurance companies outside the scope of regulatory consolidation, net of eligible short positions, where the Institution does not have more than 10% of the issued capital stock (amount that exceeds the 10% threshold)	Not applicable
55 (conservative)	Significant investments in the capital of banks, financial institutions and insurance companies outside the scope of regulatory consolidation, net of eligible short positions, where the Institution owns more than 10% of the issued share capital	Not applicable
56	National regulatory adjustments	
57	Total regulatory adjustments to Tier 2 capital	0.00
58	Tier 2 Capital (T2)	2,564.77
59	Total capital (TC = T1 + T2)	10,492.22
60	Total risk-weighted assets	68,038.08
Capital ratios and supplements		

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

61	Common Tier 1 Capital (as a percentage of total risk-weighted assets)	10.48
62	Tier 1 Capital (as a percentage of total risk-weighted assets)	11.65
63	Total Capital (as a percentage of total risk-weighted assets)	15.42
64	Institutional specific supplement (at least it must consist of: the common capital requirement of level 1 plus the capital conservation buffer, plus the countercyclical buffer, plus the G-SIB buffer; expressed as a percentage of total risk-weighted assets)	7.00
65	Of which: Capital Conservation Supplement	2.50
66	Of which: Specific Banking Countercyclical Supplement	Not applicable
67	Of which: Global Systemically Important Banks Supplement (G-SIB)	Not applicable
68	Common Tier 1 Capital available to cover supplements (as a percentage of total risk-weighted assets)	3.48
National minimums (if different from Basel 3)		
69	CET1 national minimum ratio (if it differs from the minimum established by Basel 3)	Not applicable
70	T1 national minimum ratio (if it differs from the minimum established by Basel 3)	Not applicable
71	National minimum TC ratio (if it differs from the minimum established by Basel 3)	Not applicable
Amounts below deduction thresholds (before risk weighting)		
72	Non-significant investments in the capital of other financial institutions	Not applicable
73	Significant investments in common shares of financial institutions	Not applicable
74	Rights for mortgage services (net of deferred income taxes payable)	Not applicable
75	Deferred income taxes in favor derived from temporary differences (net of deferred income taxes payable)	
Limits applicable to the inclusion of reserves in Tier 2 capital		
76	Reserves eligible for inclusion in Tier 2 capital with respect to exposures subject to the standardized methodology (prior to application of the cap)	
77	Limit on the inclusion of provisions in Tier 2 capital under the standardized methodology	
78	Reserves eligible for inclusion in Tier 2 capital with respect to exposures subject to internal rating methodology (prior to application of cap)	
79	Limit on the inclusion of reserves in Tier 2 capital under the internal rating methodology	
Equity instruments subject to phase-out (applicable only between January 1, 2018 and January 1, 2022)		
80	Current cap on CET1 instruments subject to phase-out	Not applicable
81	Amount excluded from CET1 due to the limit (excess over the limit after amortizations and maturities)	Not applicable
82	Current limit on AT1 instruments subject to phase-out	
83	Amount excluded from AT1 due to the limit (excess over the limit after amortizations and maturities)	
84	Current limit on T2 instruments subject to phase-out	
85	Amount excluded from T2 due to limit (excess over limit after amortizations and maturities)	

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

TABLE I.1 Notes to the disclosure format of the integration of capital without considering the transitional period in the application of regulatory adjustments.

Referenc e	Description
1	Elements of contributed capital in accordance with section I, paragraph a), items 1) and 2) of Article 2 Bis 6 of these provisions.
2	Results of prior years and their corresponding restatements.
3	Capital reserves, net income, gain or loss from valuation of available-for-sale securities, cumulative translation adjustment, gain or loss from valuation of cash flow hedging instruments, gain or loss from holding non-monetary assets, and the balance of remeasurements for defined benefit employee benefits, considering in each item their restatements.
4	Not applicable The capital stock of credit institutions in Mexico is represented by securities or shares. This concept only applies to entities where such capital is not represented by representative securities or shares.
5	It does not apply to the capitalization scope in Mexico, which is on an unconsolidated basis. This concept would only apply to entities where the scope of application is consolidated.
6	6 Sum of concepts 1 to 5.
7	Not applicable Mexico does not allow the use of internal models for the calculation of the market risk capital requirement.
8	Commercial Credits, net of deferred income taxes payable in accordance with the provisions of Section I, paragraph n) of Article 2 Bis 6 of these provisions.
9	Intangible assets, other than commercial credits and, if applicable, mortgage servicing rights, net of deferred income taxes payable, in accordance with the provisions of Section I, paragraph n) of Article 2 Bis 6 of these provisions.
10	Deferred income tax credits arising from tax loss carryforwards and tax credits in accordance with Section I, paragraph p) of Article 2 Bis 6 of these provisions. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011, as it does not allow offsetting against deferred income taxes payable.
11	Result from valuation of cash flow hedging instruments corresponding to hedged items that are not valued at fair value.
12	Reserves pending constitution in accordance with the provisions of Section I, paragraph k) of Article 2 Bis 6 of these provisions. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011, as it deducts from Common Equity Tier 1 the preventive reserves pending to be constituted, in accordance with the provisions of Chapter V of Title Two of these provisions, as well as those in the case of institutions that use methods based on internal ratings to determine their capital requirements, it does not only deduct the positive difference between Total Expected Losses minus Total Eligible Reserves, but also those reserves charged to accounting accounts that are not part of the income statement or stockholders' equity.
13	Benefits on the remainder of securitization transactions in accordance with the provisions of Section I, paragraph c) of Article 2 Bis 6 of these provisions.
14	Not applicable
15	Investments made by the defined benefit pension fund that correspond to resources to which the Institution does not have unrestricted and unlimited access. These investments will be considered net of plan liabilities and any applicable deferred income tax expense that has not been applied in any other regulatory adjustment.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

16	The amount of the investment in any own shares acquired by the Institution: in accordance with the provisions of the Law as set forth in Section I, paragraph d) of Article 2 Bis 6 of these provisions; through the securities indexes provided for in Section I, paragraph e) of Article 2 Bis 6 of these provisions; and through the investment funds considered in Section I, paragraph i) of Article 2 Bis 6 of these provisions. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this item is made from Common Equity Tier 1, regardless of the level of capital invested.
17	The Bank may also invest in other financial entities that are members of the group to which the Institution belongs or of their financial subsidiaries in accordance with the provisions of Section I, paragraph j) of Article 2 Bis 6 of these provisions, including those investments corresponding to investment funds considered in Section I, paragraph i) of Article 2 Bis 6. This treatment is more conservative than the one established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this concept is made from common equity tier 1 capital, regardless of the level of capital invested, and additionally because any type of entity is considered, not only financial institutions.
18	Investments in shares, where the Institution owns up to 10% of the capital stock of financial entities referred to in Articles 89 of the Law and 31 of the Law to Regulate Financial Groupings in accordance with the provisions of section I, paragraph f) of Article 2 Bis 6 of these provisions. I paragraph f) of Article 2 Bis 6 of these provisions, including those investments made through the investment funds referred to in section I paragraph i) of Article 2 Bis 6. The above investments exclude those made in the capital of multilateral development or international development organizations that have a credit rating assigned to the issuer by one of the rating agencies, equal to or better than Risk Grade 2 in the long term. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this concept is made from Common Equity Tier 1, regardless of the level of capital in which it has been invested, and additionally because the total recorded amount of the investments is deducted.
19*	Investments in shares, where the Institution owns more than 10% of the capital stock of the financial entities referred to in Articles 89 of the Law and 31 of the Law to Regulate Financial Groupings in accordance with the provisions of section I, paragraph f) of Article 2 Bis 6 of these provisions. I paragraph f) of Article 2 Bis 6 of these provisions, including those investments made through the investment funds referred to in section I paragraph i) of Article 2 Bis 6. The above investments exclude those made in the capital of multilateral development or international development organizations that have a credit rating assigned to the issuer by one of the rating agencies, equal to or better than Risk Grade 2 in the long term. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this concept is made from Common Equity Tier 1, regardless of the level of capital in which it has been invested, and additionally because the total recorded amount of the investments is deducted.
20*	Mortgage service fees will be deducted for the total amount recorded if such fees exist. This treatment is more conservative than the one established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 due to the fact that the total amount recorded is deducted from the rights.
21	The amount of deferred income taxes in favor arising from temporary differences less the corresponding deferred income taxes payable not considered to offset other adjustments, which exceeds 10% of the difference between reference 6 and the sum of references 7 to 20.
22	Not applicable The items were deducted from equity in their entirety. See notes 19, 20 and 21.
23	Not applicable The concept was deducted from capital in its entirety. See note from reference 19.
24	Not applicable The concept was deducted from capital in its entirety. See note from reference 20.
25	Not applicable The concept was deducted from capital in its entirety. See note from reference 21.
	National adjustments considered as the sum of the following items.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

26	<p>A. The sum of the cumulative exchange adjustment and the result from holding non-monetary assets considering the amount of each of these items with the opposite sign to that considered for inclusion in reference 3, i.e. if they are positive in this item they will be included as negative and vice versa.</p> <p>B. Investments in subordinated debt instruments, in accordance with the provisions of Section I, paragraph b) of Article 2 Bis 6 of these provisions.</p> <p>C. The amount that results if as a result of the acquisition of securitization positions, the originating institutions record a profit or an increase in the value of their assets with respect to the assets previously recorded in their balance sheet, in accordance with the provisions of section I, paragraph c) of Article 2 Bis 6 of these provisions.</p> <p>D. Investments in the capital of multilateral development or international development organizations in accordance with the provisions of Section I, paragraph f) of Article 2 Bis 6 of these provisions, which have a credit rating assigned by one of the rating agencies to the issuer, equal to or better than Risk Grade 2 in the long term.</p> <p>E. Investments in shares of companies related to the Institution under the terms of Articles 73, 73 Bis and 73 Bis 1 of the Law, including the corresponding amount of investments in mutual funds and investments in indexes as established in section I, paragraph g) of Article 2 Bis 6 of these provisions.</p> <p>G. Investments in shares, other than fixed capital, of listed investment funds in which the Institution holds more than 15 percent of the stockholders' equity of the investment fund, in accordance with Section I (i) of Article 2 Bis 6, which have not been considered in the above references.</p>
	<p>H. Any type of contribution whose resources are destined to the acquisition of shares of the controlling company of the financial group, of the other financial entities that are members of the group to which the Institution belongs or of their financial subsidiaries in accordance with the provisions of section I, paragraph l) of Article 2 Bis 6 of these provisions. I. Operations that contravene the provisions, in accordance with the provisions of Section I, paragraph m) of Article 2 Bis 6 of these provisions. J. Deferred charges and prepayments, net of deferred income taxes payable, as established in Section I paragraph n) of Article 2 Bis 6 of these provisions. K. Positions related to the First Loss Scheme in which risk is retained or credit protection is provided up to a certain limit of a position in accordance with Section I (o) of Article 2 Bis 6. L. Employees' deferred profit sharing payable pursuant to Section I, paragraph p) of Article 2 Bis 6 of these provisions. M. The aggregate amount of the Transactions Subject to Credit Risk by Relevant Related Persons in accordance with section I paragraph s) of Article 2 Bis 6 of these provisions. N. The difference between the investments made by the defined benefit pension fund in accordance with Article 2 Bis 8 minus reference 15. O. Adjustment for recognition of Net Equity. The amount shown corresponds to the amount recorded in cell C1 of the format included in section II of this Annex. P. Investments or contributions, directly or indirectly, in the capital of companies or in the assets of trusts or other similar types of entities whose purpose is to compensate and settle transactions carried out on the stock exchange, except for the participation of such companies or trusts in the latter in accordance with paragraph f) section I of Article 2 Bis 6.</p>
27	<p>Not applicable There are no regulatory adjustments for additional Tier 1 capital or supplementary capital. All regulatory adjustments are made to Common Equity Tier 1. 28 Sum of lines 7 to 22, plus lines 26 and 27. 29 Section 6 minus Section 28.</p>
30	<p>The corresponding amount of the securities representing the capital stock (including the premium on the sale of shares) that have not been considered in the Fundamental Capital and the Capital Instruments, which meet the conditions set forth in Exhibit 1-R of these provisions in accordance with the provisions of Section II of Article 2 Bis 6 of these provisions. 31 Amount of line 30 classified as equity under applicable accounting standards.</p>
32	<p>Not applicable Directly issued instruments that qualify as additional Tier 1 capital, plus their premium, are recorded for accounting purposes as capital.</p>
33	<p>Subordinated debentures computable as Non-Core Basic Capital, in accordance with the provisions of the Third Transitory Article of Resolution 50a, which amends the general provisions applicable to credit institutions (Resolution 50a).</p>
34	<p>Not applicable See note from reference 5.</p>
35	<p>Not applicable See note from reference 5.</p>
36	<p>Sum of Sections 30, 33 and 34.</p>
37	<p>Not applicable The deduction is made in full from Common Equity Tier 1.</p>

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

38	Not applicable The deduction is made in full from Common Equity Tier 1.
39	Not applicable The deduction is made in full from Common Equity Tier 1.
40	Not applicable The deduction is made in full from Common Equity Tier 1.
41	National adjustments considered: Adjustment for recognition of Net Equity. The amount shown corresponds to the amount recorded in cell C1 of the format included in section II of this appendix.
42	Not applicable There are no regulatory adjustments for supplementary capital. All regulatory adjustments are made to Common Equity Tier 1.
43	Sum of Section 37 to 42.
44	Section 36, minus Section 43.
45	Section 29, plus Section 44.
46	The corresponding amount of the securities representing the capital stock (including the premium on the sale of shares) that have not been considered in the Fundamental Capital or in the Non-Fundamental Basic Capital and the Capital Instruments, which comply with Exhibit 1-S of these provisions in accordance with the provisions of Article 2 Bis 7 of these provisions.
47	Subordinated debentures computable as supplementary capital, in accordance with the provisions of the Third Transitory Article of Resolution 50a.
48	Not applicable See note from reference 5.
49	Not applicable See note from reference 5.
50	Provisions for credit risk up to the sum of 1.25% of the assets weighted by credit risk, corresponding to the Transactions in which the Standardized Method is used to calculate the capital requirement for credit risk; and the positive difference of the Total Allowable Reserves minus the Total Expected Losses, up to an amount not to exceed 0.6 percent of the assets weighted by credit risk, corresponding to the Operations in which the method based on internal ratings is used to calculate the capital requirement for credit risk, in accordance with section III of Article 2 Bis 7.
51	Sum of Section 46 to 48, plus Section 50.
52	Not applicable The deduction is made in full from Common Equity Tier 1.
53	Not applicable The deduction is made in full from Common Equity Tier 1.
54	Not applicable The deduction is made in full from Common Equity Tier 1.
55	Not applicable The deduction is made in full from Common Equity Tier 1.
56	National adjustments considered: Adjustment for recognition of Net Equity. The amount shown corresponds to the amount recorded in cell C4 of the format included in section II of this appendix.
57	Sum of Sections 52 to 56.
58	Section 51, minus Section 57.
59	Section 45, plus Section 58.
60	Weighted Assets Subject to Total Risk
61	Section 29 divided by Section 60 (expressed as a percentage).
62	Section 45 divided by Section 60 (expressed as a percentage).
63	Section 59 divided by Section 60 (expressed as a percentage).
64	Report the sum of the percentages expressed in lines 61, 65, 66, and 67.
65	Report 2.5%.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

66	Percentage corresponding to the Countercyclical Capital Supplement referred to in paragraph c), section III of Article 2 Bis 5.
67	The SCCS amount in row 64 (expressed as a percentage of risk-weighted assets) that relates to the systemic capital supplement of the multiple banking institution, in terms of paragraph b), section III of Article 2 Bis 5.
68	Section 61 minus 7%.
69	Not applicable The minimum is the same as that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011.
70	Not applicable The minimum is the same as that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011.
71	Not applicable The minimum is the same as that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011.
72	Not applicable The concept was deducted from capital in its entirety. See note from reference 18.
73	Not applicable The concept was deducted from capital in its entirety. See note from reference 19.
74	Not applicable The concept was deducted from capital in its entirety. See note from reference 20.
75	The amount, not to exceed 10% of the difference between reference 6 and the sum of references 7 to 20, of deferred income taxes in favor arising from temporary differences less the corresponding deferred income taxes payable not considered to offset other adjustments.
76	Provisions for credit risk corresponding to the Operations in which the Standardized Approach is used to calculate the capital requirement for credit risk.
77	1.25% of the assets weighted by credit risk, corresponding to the Transactions in which the Standardized Approach is used to calculate the capital requirement for credit risk.
78	Positive difference of Total Eligible Reserves minus Total Expected Losses for Transactions where the internal ratings-based approach is used to calculate the capital requirement for credit risk.
79	0.6 percent of the credit risk weighted assets, corresponding to the Operations in which the method based on internal ratings is used to calculate the capital requirement for credit risk.
80	Not applicable There are no instruments subject to transition that are included in Common Equity Tier 1.
81	Not applicable There are no instruments subject to transition that are included in Common Equity Tier 1.
82	Balance of the instruments that computed as capital in the basic portion as of December 31, 2012 for the corresponding limit of the balance of such instruments.
83	Balance of instruments computed as equity in the basic portion as of December 31, 2012 less line item 33.
84	Balance of the instruments that computed as capital in the supplementary part as of December 31, 2012 for the corresponding limit of the balance of such instruments.
85	Balance of instruments computed as capital in the supplementary part as of December 31, 2012 less line 47.
70	T1 national minimum ratio (if it differs from the minimum established by Basel 3)
71	National minimum TC ratio (if it differs from the minimum established by Basel 3)
Amounts below deduction thresholds (before risk weighting)	
72	Non-significant investments in the capital of other financial institutions
73	Significant investments in common shares of financial institutions
74	Rights for mortgage services (net of deferred income taxes payable)
75	Deferred income taxes in favor derived from temporary differences (net of deferred income taxes payable)

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Limits applicable to the inclusion of reserves in Tier 2 capital	
76	Reserves eligible for inclusion in Tier 2 capital with respect to exposures subject to the standardized methodology (prior to application of the cap)
77	Limit on the inclusion of provisions in Tier 2 capital under the standardized methodology
78	Reserves eligible for inclusion in Tier 2 capital with respect to exposures subject to internal rating methodology (prior to application of cap)
79	Limit on the inclusion of reserves in Tier 2 capital under the internal rating methodology
Equity instruments subject to phase-out (applicable only between January 1, 2018 and January 1, 2022)	
80	Current cap on CET1 instruments subject to phase-out
81	Amount excluded from CET1 due to the limit (excess over the limit after amortizations and maturities)
82	Current limit on AT1 instruments subject to phase-out
83	Amount excluded from AT1 due to the limit (excess over the limit after amortizations and maturities)
84	Current limit on T2 instruments subject to phase-out
85	Amount excluded from T2 due to limit (excess over limit after amortizations and maturities)

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

TABLE I.1 Notes to the disclosure format of the integration of capital without considering the transitional period in the application of regulatory adjustments.

Referenc e	Description
1	Elements of contributed capital in accordance with section I, paragraph a), items 1) and 2) of Article 2 Bis 6 of these provisions.
2	Results of prior years and their corresponding restatements.
3	Capital reserves, net income, gain or loss from valuation of available-for-sale securities, cumulative translation adjustment, gain or loss from valuation of cash flow hedging instruments, gain or loss from holding non-monetary assets, and the balance of remeasurements for defined benefit employee benefits, considering in each item their restatements.
4	Not applicable The capital stock of credit institutions in Mexico is represented by securities or shares. This concept only applies to entities where such capital is not represented by representative securities or shares.
5	It does not apply to the capitalization scope in Mexico, which is on an unconsolidated basis. This concept would only apply to entities where the scope of application is consolidated.
6	6 Sum of concepts 1 to 5.
7	Not applicable Mexico does not allow the use of internal models for the calculation of the market risk capital requirement.
8	Commercial Credits, net of deferred income taxes payable in accordance with the provisions of Section I, paragraph n) of Article 2 Bis 6 of these provisions.
9	Intangible assets, other than commercial credits and, if applicable, mortgage servicing rights, net of deferred income taxes payable, in accordance with the provisions of Section I, paragraph n) of Article 2 Bis 6 of these provisions.
10	Deferred income tax credits arising from tax loss carryforwards and tax credits in accordance with Section I, paragraph p) of Article 2 Bis 6 of these provisions. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011, as it does not allow offsetting against deferred income taxes payable.
11	Result from valuation of cash flow hedging instruments corresponding to hedged items that are not valued at fair value.
12	Reserves pending constitution in accordance with the provisions of Section I, paragraph k) of Article 2 Bis 6 of these provisions. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011, as it deducts from Common Equity Tier 1 the preventive reserves pending to be constituted, in accordance with the provisions of Chapter V of Title Two of these provisions, as well as those in the case of institutions that use methods based on internal ratings to determine their capital requirements, it does not only deduct the positive difference between Total Expected Losses minus Total Eligible Reserves, but also those reserves charged to accounting accounts that are not part of the income statement or stockholders' equity.
13	Benefits on the remainder of securitization transactions in accordance with the provisions of Section I, paragraph c) of Article 2 Bis 6 of these provisions.
14	Not applicable
15	Investments made by the defined benefit pension fund that correspond to resources to which the Institution does not have unrestricted and unlimited access. These investments will be considered net of plan liabilities and any applicable deferred income tax expense that has not been applied in any other regulatory adjustment.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

16	The amount of the investment in any own shares acquired by the Institution: in accordance with the provisions of the Law as set forth in Section I, paragraph d) of Article 2 Bis 6 of these provisions; through the securities indexes provided for in Section I, paragraph e) of Article 2 Bis 6 of these provisions; and through the investment funds considered in Section I, paragraph i) of Article 2 Bis 6 of these provisions. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this item is made from Common Equity Tier 1, regardless of the level of capital invested.
17	The Bank may also invest in other financial entities that are members of the group to which the Institution belongs or of their financial subsidiaries in accordance with the provisions of Section I, paragraph j) of Article 2 Bis 6 of these provisions, including those investments corresponding to investment funds considered in Section I, paragraph i) of Article 2 Bis 6. This treatment is more conservative than the one established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this concept is made from common equity tier 1 capital, regardless of the level of capital invested, and additionally because any type of entity is considered, not only financial institutions.
18	Investments in shares, where the Institution owns up to 10% of the capital stock of financial entities referred to in Articles 89 of the Law and 31 of the Law to Regulate Financial Groupings in accordance with the provisions of section I, paragraph f) of Article 2 Bis 6 of these provisions. I paragraph f) of Article 2 Bis 6 of these provisions, including those investments made through the investment funds referred to in section I paragraph i) of Article 2 Bis 6. The above investments exclude those made in the capital of multilateral development or international development organizations that have a credit rating assigned to the issuer by one of the rating agencies, equal to or better than Risk Grade 2 in the long term. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this concept is made from Common Equity Tier 1, regardless of the level of capital in which it has been invested, and additionally because the total recorded amount of the investments is deducted.
19*	Investments in shares, where the Institution owns more than 10% of the capital stock of the financial entities referred to in Articles 89 of the Law and 31 of the Law to Regulate Financial Groupings in accordance with the provisions of section I, paragraph f) of Article 2 Bis 6 of these provisions. I paragraph f) of Article 2 Bis 6 of these provisions, including those investments made through the investment funds referred to in section I paragraph i) of Article 2 Bis 6. The above investments exclude those made in the capital of multilateral development or international development organizations that have a credit rating assigned to the issuer by one of the rating agencies, equal to or better than Risk Grade 2 in the long term. This treatment is more conservative than that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 because the deduction for this concept is made from Common Equity Tier 1, regardless of the level of capital in which it has been invested, and additionally because the total recorded amount of the investments is deducted.
20*	Mortgage service fees will be deducted for the total amount recorded if such fees exist. This treatment is more conservative than the one established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011 due to the fact that the total amount recorded is deducted from the rights.
21	The amount of deferred income taxes in favor arising from temporary differences less the corresponding deferred income taxes payable not considered to offset other adjustments, which exceeds 10% of the difference between reference 6 and the sum of references 7 to 20.
22	Not applicable The items were deducted from equity in their entirety. See notes 19, 20 and 21.
23	Not applicable The concept was deducted from capital in its entirety. See note from reference 19.
24	Not applicable The concept was deducted from capital in its entirety. See note from reference 20.
25	Not applicable The concept was deducted from capital in its entirety. See note from reference 21.
	National adjustments considered as the sum of the following items.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

26	<p>A. The sum of the cumulative exchange adjustment and the result from holding non-monetary assets considering the amount of each of these items with the opposite sign to that considered for inclusion in reference 3, i.e. if they are positive in this item they will be included as negative and vice versa.</p> <p>B. Investments in subordinated debt instruments, in accordance with the provisions of Section I, paragraph b) of Article 2 Bis 6 of these provisions.</p> <p>C. The amount that results if as a result of the acquisition of securitization positions, the originating institutions record a profit or an increase in the value of their assets with respect to the assets previously recorded in their balance sheet, in accordance with the provisions of section I, paragraph c) of Article 2 Bis 6 of these provisions.</p> <p>D. Investments in the capital of multilateral development or international development organizations in accordance with the provisions of Section I, paragraph f) of Article 2 Bis 6 of these provisions, which have a credit rating assigned by one of the rating agencies to the issuer, equal to or better than Risk Grade 2 in the long term.</p> <p>E. Investments in shares of companies related to the Institution under the terms of Articles 73, 73 Bis and 73 Bis 1 of the Law, including the corresponding amount of investments in mutual funds and investments in indexes as established in section I, paragraph g) of Article 2 Bis 6 of these provisions.</p> <p>G. Investments in shares, other than fixed capital, of listed investment funds in which the Institution holds more than 15 percent of the stockholders' equity of the investment fund, in accordance with Section I (i) of Article 2 Bis 6, which have not been considered in the above references.</p>
	<p>H. Any type of contribution whose resources are destined to the acquisition of shares of the controlling company of the financial group, of the other financial entities that are members of the group to which the Institution belongs or of their financial subsidiaries in accordance with the provisions of section I, paragraph l) of Article 2 Bis 6 of these provisions. I. Operations that contravene the provisions, in accordance with the provisions of Section I, paragraph m) of Article 2 Bis 6 of these provisions. J. Deferred charges and prepayments, net of deferred income taxes payable, as established in Section I paragraph n) of Article 2 Bis 6 of these provisions. K. Positions related to the First Loss Scheme in which risk is retained or credit protection is provided up to a certain limit of a position in accordance with Section I (o) of Article 2 Bis 6. L. Employees' deferred profit sharing payable pursuant to Section I, paragraph p) of Article 2 Bis 6 of these provisions. M. The aggregate amount of the Transactions Subject to Credit Risk by Relevant Related Persons in accordance with section I paragraph s) of Article 2 Bis 6 of these provisions. N. The difference between the investments made by the defined benefit pension fund in accordance with Article 2 Bis 8 minus reference 15. O. Adjustment for recognition of Net Equity. The amount shown corresponds to the amount recorded in cell C1 of the format included in section II of this Annex. P. Investments or contributions, directly or indirectly, in the capital of companies or in the assets of trusts or other similar types of entities whose purpose is to compensate and settle transactions carried out on the stock exchange, except for the participation of such companies or trusts in the latter in accordance with paragraph f) section I of Article 2 Bis 6.</p>
27	<p>Not applicable There are no regulatory adjustments for additional Tier 1 capital or supplementary capital. All regulatory adjustments are made to Common Equity Tier 1. 28 Sum of lines 7 to 22, plus lines 26 and 27. 29 Section 6 minus Section 28.</p>
30	<p>The corresponding amount of the securities representing the capital stock (including the premium on the sale of shares) that have not been considered in the Fundamental Capital and the Capital Instruments, which meet the conditions set forth in Exhibit 1-R of these provisions in accordance with the provisions of Section II of Article 2 Bis 6 of these provisions. 31 Amount of line 30 classified as equity under applicable accounting standards.</p>
32	<p>Not applicable Directly issued instruments that qualify as additional Tier 1 capital, plus their premium, are recorded for accounting purposes as capital.</p>
33	<p>Subordinated debentures computable as Non-Core Basic Capital, in accordance with the provisions of the Third Transitory Article of Resolution 50a, which amends the general provisions applicable to credit institutions (Resolution 50a).</p>
34	<p>Not applicable See note from reference 5.</p>
35	<p>Not applicable See note from reference 5.</p>
36	<p>Sum of Sections 30, 33 and 34.</p>
37	<p>Not applicable The deduction is made in full from Common Equity Tier 1.</p>

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

38	Not applicable The deduction is made in full from Common Equity Tier 1.
39	Not applicable The deduction is made in full from Common Equity Tier 1.
40	Not applicable The deduction is made in full from Common Equity Tier 1.
41	National adjustments considered: Adjustment for recognition of Net Equity. The amount shown corresponds to the amount recorded in cell C1 of the format included in section II of this appendix.
42	Not applicable There are no regulatory adjustments for supplementary capital. All regulatory adjustments are made to Common Equity Tier 1.
43	Sum of Section 37 to 42.
44	Section 36, minus Section 43.
45	Section 29, plus Section 44.
46	The corresponding amount of the securities representing the capital stock (including the premium on the sale of shares) that have not been considered in the Fundamental Capital or in the Non-Fundamental Basic Capital and the Capital Instruments, which comply with Exhibit 1-S of these provisions in accordance with the provisions of Article 2 Bis 7 of these provisions.
47	Subordinated debentures computable as supplementary capital, in accordance with the provisions of the Third Transitory Article of Resolution 50a.
48	Not applicable See note from reference 5.
49	Not applicable See note from reference 5.
50	Provisions for credit risk up to the sum of 1.25% of the assets weighted by credit risk, corresponding to the Transactions in which the Standardized Method is used to calculate the capital requirement for credit risk; and the positive difference of the Total Allowable Reserves minus the Total Expected Losses, up to an amount not to exceed 0.6 percent of the assets weighted by credit risk, corresponding to the Operations in which the method based on internal ratings is used to calculate the capital requirement for credit risk, in accordance with section III of Article 2 Bis 7.
51	Sum of Section 46 to 48, plus Section 50.
52	Not applicable The deduction is made in full from Common Equity Tier 1.
53	Not applicable The deduction is made in full from Common Equity Tier 1.
54	Not applicable The deduction is made in full from Common Equity Tier 1.
55	Not applicable The deduction is made in full from Common Equity Tier 1.
56	National adjustments considered: Adjustment for recognition of Net Equity. The amount shown corresponds to the amount recorded in cell C4 of the format included in section II of this appendix.
57	Sum of Sections 52 to 56.
58	Section 51, minus Section 57.
59	Section 45, plus Section 58.
60	Weighted Assets Subject to Total Risk
61	Section 29 divided by Section 60 (expressed as a percentage).
62	Section 45 divided by Section 60 (expressed as a percentage).
63	Section 59 divided by Section 60 (expressed as a percentage).
64	Report the sum of the percentages expressed in lines 61, 65, 66, and 67.
65	Report 2.5%.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

66	Percentage corresponding to the Countercyclical Capital Supplement referred to in paragraph c), section III of Article 2 Bis 5.
67	The SCCS amount in row 64 (expressed as a percentage of risk-weighted assets) that relates to the systemic capital supplement of the multiple banking institution, in terms of paragraph b), section III of Article 2 Bis 5.
68	Section 61 minus 7%.
69	Not applicable The minimum is the same as that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011.
70	Not applicable The minimum is the same as that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011.
71	Not applicable The minimum is the same as that established by the Basel Committee on Banking Supervision in its document "Basel III: Global Regulatory Framework for Strengthening Banks and Banking Systems" published in June 2011.
72	Not applicable The concept was deducted from capital in its entirety. See note from reference 18.
73	Not applicable The concept was deducted from capital in its entirety. See note from reference 19.
74	Not applicable The concept was deducted from capital in its entirety. See note from reference 20.
75	The amount, not to exceed 10% of the difference between reference 6 and the sum of references 7 to 20, of deferred income taxes in favor arising from temporary differences less the corresponding deferred income taxes payable not considered to offset other adjustments.
76	Provisions for credit risk corresponding to the Operations in which the Standardized Approach is used to calculate the capital requirement for credit risk.
77	1.25% of the assets weighted by credit risk, corresponding to the Transactions in which the Standardized Approach is used to calculate the capital requirement for credit risk.
78	Positive difference of Total Eligible Reserves minus Total Expected Losses for Transactions where the internal ratings-based approach is used to calculate the capital requirement for credit risk.
79	0.6 percent of the credit risk weighted assets, corresponding to the Operations in which the method based on internal ratings is used to calculate the capital requirement for credit risk.
80	Not applicable There are no instruments subject to transition that are included in Common Equity Tier 1.
81	Not applicable There are no instruments subject to transition that are included in Common Equity Tier 1.
82	Balance of the instruments that computed as capital in the basic portion as of December 31, 2012 for the corresponding limit of the balance of such instruments.
83	Balance of instruments computed as equity in the basic portion as of December 31, 2012 less line item 33.
84	Balance of the instruments that computed as capital in the supplementary part as of December 31, 2012 for the corresponding limit of the balance of such instruments.
85	Balance of instruments computed as capital in the supplementary part as of December 31, 2012 less line 47.
70	T1 national minimum ratio (if it differs from the minimum established by Basel 3)
71	National minimum TC ratio (if it differs from the minimum established by Basel 3)
Amounts below deduction thresholds (before risk weighting)	
72	Non-significant investments in the capital of other financial institutions
73	Significant investments in common shares of financial institutions
74	Rights for mortgage services (net of deferred income taxes payable)
75	Deferred income taxes in favor derived from temporary differences (net of deferred income taxes payable)

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Limits applicable to the inclusion of reserves in Tier 2 capital	
76	Reserves eligible for inclusion in Tier 2 capital with respect to exposures subject to the standardized methodology (prior to application of the cap)
77	Limit on the inclusion of provisions in Tier 2 capital under the standardized methodology
78	Reserves eligible for inclusion in Tier 2 capital with respect to exposures subject to internal rating methodology (prior to application of cap)
79	Limit on the inclusion of reserves in Tier 2 capital under the internal rating methodology
Equity instruments subject to phase-out (applicable only between January 1, 2018 and January 1, 2022)	
80	Current cap on CET1 instruments subject to phase-out
81	Amount excluded from CET1 due to the limit (excess over the limit after amortizations and maturities)
82	Current limit on AT1 instruments subject to phase-out
83	Amount excluded from AT1 due to the limit (excess over the limit after amortizations and maturities)
84	Current limit on T2 instruments subject to phase-out
85	Amount excluded from T2 due to limit (excess over limit after amortizations and maturities)

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

As of the end of September 2023, Afirme Bank is classified as Category I, in accordance with the provisions applicable to capitalization requirements, issued by the National Banking and Securities Commission to Multiple Banking institutions under the terms of Article 50 of the LIC, Chapter I of the First Bis Title.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

ANNEX 1-O Bis

(Before replies with Banco de México)

DISCLOSURE OF INFORMATION REGARDING THE REASON FOR LEVERAGE

I.- Integration of the main sources of leverage

II.- Comparison between total assets and Adjusted Assets

III. - Reconciliation between total assets and on-balance sheet exposure

IV. Analysis of the most important variations of the elements (numerator and denominator) of the Leverage Ratio.

I. Integration of the main sources of leverage

Institutions must disclose the integration of the main sources of leverage, according to Table I.1

Table I.1

sep-23

Reference	ITEM	AMOUNT
1	Items within the balance sheet (excluding derivative financial instruments and repurchase operations and securities loans -SFT for its acronym in English- but including collaterals received as collateral and recorded on the balance sheet)	65,381
2	(Amounts of assets deducted to determine Basel III Tier 1 capital)	- 121
3	On-balance sheet exposures (Net) (excluding derivative financial instruments and SFT, sum of lines 1 and 2)	65,260
	Exposures to derivative financial instruments	
4	Annual replacement cost associated with all operations with derivative financial instruments (net of allowable cash variation margin)	-
5	Amounts of additional factors for potential future exposure, associated with all operations with derivative financial instruments.	-
6	Increase in Collateral contributed in operations with derivative financial instruments when said collateral is removed from the balance sheet in accordance with the operational accounting framework	-
7	(Deductions to accounts receivable for variation margin in cash contributed in operations with derivative financial instruments)	-
8	(Exposure for operations in derivatives financial instruments on behalf of clients, in which the clearing partner does not grant its guarantee in case of breach of the debt of the Central Counterpart)	-
9	Adjusted effective notional amount of subscribed credit derivative financial instruments	-
10	(Compensations made to the adjusted cash notional of the subscribed credit derivative financial instruments and deductions of the additional factors for the subscribed credit derivative financial instruments)	-
11	Total exposures to derivative financial instruments (sum of lines 4 to 10)	-
	Total exposures to derivative financial instruments (sum of lines 4 to 10)	
12	Gross SFT assets (without offset recognition), after accounting transaction adjustments for sales	-

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

13	(Accounts payable and receivable from SFT cleared)	-
14	Counterparty Risk Exposure by SFT	283
15	Exposures by SFT acting on behalf of third parties	-
16	Total exposures from financing operations with securities (sum of lines 12 to 15)	283
Capital and total exposures		
17	Off-balance sheet exposure (gross notional amount)	-
18	(Adjustments for conversion to credit equivalents)	-
19	Off-balance sheet items (sum of lines 17 and 18)	-
Capital and total exposures		
20	Tier 1 Capital	868
21	Total exposures (sum of lines 3, 11, 16, and 19)	65,543
Leverage ratio		
22	Basel III leverage ratio	1.32%

TABLE II.1

Reference	ITEM	AMOUNT
1	Total assets	66,061
2	Adjustment for investments in the capital of banking, financial, insurance, or commercial entities that are consolidated for accounting purposes, but are outside the scope of regulatory consolidation	-
3	Adjustment related to trust assets recognized in the balance sheet according to the accounting framework, but excluded from the measurement of the exposure of the leverage ratio	-
4	Adjustment for derivative financial instruments	-
5	Adjustment for repurchase operations and securities loan	397
6	Adjustment for items recognized in memorandum accounts	-
7	Other settings	-
8	Leverage ratio exposure	65,664

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

TABLE III.1

CASH INPUTS					
17	Cash inflows for guaranteed operations	42,735	4	42,735	4
18	Cash inflows for unsecured operations	7,118	4,594	7,420	4,745
19	Other cash inflows	5,693	5,693	5,693	10,442
20	TOTAL CASH INPUTS	55,546	10,291	55,847	10,442
			Adjusted amount		Adjusted amount
21	TOTAL COMPUTABLE LIQUID ASSETS	Not applicable	30,682	Not applicable	30,682
22	TOTAL NET OF CASH OUTPUTS	Not applicable	15,114	Not applicable	14,996
23	LIQUIDITY COVERAGE COEFFICIENT	Not applicable	203.01%	Not applicable	204.60%

	Third Quarter Average of 2023
Average daily individual CCL of the quarter	203.01%

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Consolidated daily CCL average of the quarter	204.60%
---	---------

- 91 calendar days are considered for the quarter corresponding to July - September 2023.
- During the period in question, the main change was due to cash outflows from unsecured wholesale financing.
- The evolution of the composition of Eligible and Computable Liquid Assets was as follows:

July	August	September
38.35%	-12.25%	-1.03%

- Banca Afirme does not have a currency mismatch.
- The centralization of liquidity management is concentrated in Banca Afirme.
- Within the flows reported in the form as informative, the flows for the quarter for Inputs and Outputs are detailed:

Month	Exits	Tickets
July	1.0	1.0
August	0.0	0.1
September	1.1	1.6

**Amounts in millions of pesos*

REVELATION OF THE NET STABLE FUNDING RATIO

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

In compliance with Annex 10 of Article 8 stipulated in Section III of the General Provisions on liquidity requirements for Multiple Banking institutions, the disclosure format of the net stable funding ratio for the third quarter of 2023 before Banxico replicas is detailed.

Amounts in millions of pesos		Individual Figures				Consolidated Figures						
		Unweighted amount by residual term			Weighted amount		Unweighted amount by residual term			Weighted amount		
		Without caducity	< 6 month	From 6 months to < 1 year	≥1 year		Without caducity	< 6 month	From 6 months to < 1 year	≥1 year

ENTITIES OF AFIRME FINANCIAL GROUP THAT COULD RECEIVE FINANCIAL SUPPORT

According to Annex 11 of the Liquidity Provisions, the entities listed below, members of AFIRME Financial Group, could receive financial support up to the amount indicated according to what was approved in the Board of Directors meeting on October 24, 2023:

Name of the Entities	Financing Amount	Type of operation
Arrendadora Afirme, SA de CV, SOFOM	\$2,000	Credit line derived from a contract with a term
Factoraje Afirme, SA de CV, SOFOM	\$1,000	Credit line derived from a contract with a term
Almacenadora Afirme, SA de CV, Organización Auxiliar de Crédito	\$3,190	Credit line derived from a contract with a term
Seguros Afirme	\$25	CCC for firm deposits and overdrafts
Banco de Inversión Afirme, SA de CV, Institución de Banca Múltiple	\$6,085	Call money line

The entities listed below, which are members of AFIRME Grupo Financiero, are the ones that consolidate for the calculation of the ratios:

Name of the Entities	Financing Amount
Arrendadora Afirme, SA de CV, SOFOM	\$2,000
Factoraje Afirme, SA de CV, SOFOM	\$1,000

Additionally, to address liquidity issues, the Institution has the Banca Afirme Contingency Plan, which was approved by the Board of Directors on April 25, 2023, and contains corrective actions to deal with liquidity stress situations.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Main Sources of Financing

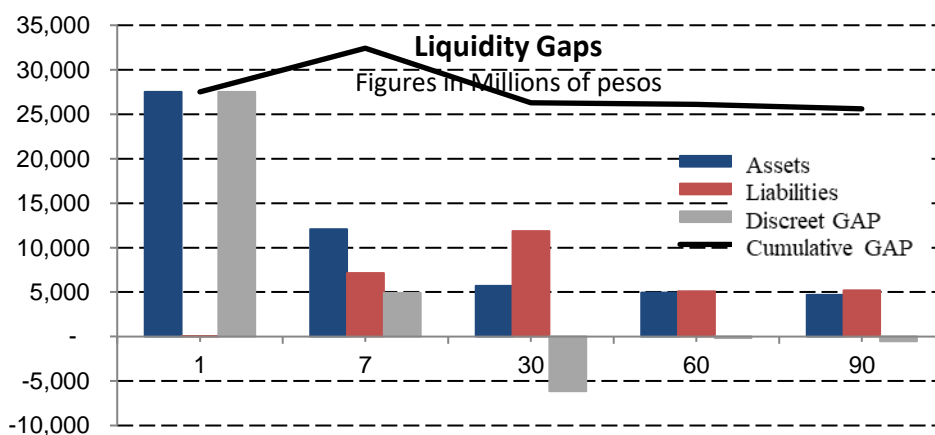

In general, the financing needs of the Institution's loan portfolio are covered by traditional fund-raising, however, other liquidity elements are maintained if required as credit lines and the ability to issue bank paper in the market, not encountering legal, regulatory or operational limitations.

Traditional Catchment September 29, 2023	
Immediate demand deposits	42,555
Fixed term deposits	44,567
Credit Securities Issued	-
Capture without movements	112
Total	87,244

Liquidity risk

Liquidity Risk is defined as the potential loss from the impossibility of renewing liabilities or contracting others under normal conditions for the Bank, or from the early or forced sale of assets at unusual discounts to meet its obligations. To measure the liquidity risk, the Liquidity Coverage Ratio (CCL) and the liquidity bands are determined, considering the nature of the assets and liabilities on the balance sheet over a period of time.

The accumulated band at 60 days from Banca Afirme was \$26,114 million pesos at the close of the 3rd quarter 2023, a level that respected the established limit. The bands for term up to 90 days would be the following:

On a daily basis, the Liquidity Coverage Coefficient (CCL) is monitored, since the Supervisory Authority imposes a minimum to promote the short-term resistance of the liquidity risk profile, guaranteeing that the Institution has sufficient high-quality liquid assets to overcome a significant stress scenario over a 30-day period.

As of September 29, 2023, the Liquidity Coverage Ratio is 171%. In order to show the behavior of the CCL, the closing values for Q3 2023 are presented below, compared to the previous quarter.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

CCL evolution	June 2023	September 2023
Computable Liquid Assets (Weighted)	40,103	36,285
Net Exits at 30 days	21,503	21,217
CCL	187%	171%

The evolution of Computable Liquid Assets compared to the immediately preceding quarter is shown below:

Computable Liquid Assets Evolution (Unweighted)	June 2023	September 2023
Liquid Assets Level 1	39,327	35,171
Liquid Assets Level 2	912	1,311
Total Liquid Assets	40,103	36,482

As of September 29, 2023, the Net Stable Funding Ratio is 160.42%.

Net Stable Funding Ratio	June 2023	September 2023
Required Stable Financing Amount	57,960	58,814
Stable Financing Amount Available	92,029	94,348
CFEN	159%	160%

*Information before replicas.

The liquidity-adjusted market VaR is interpreted as the loss incurred by the bank for the time it would take to liquidate the securities position in the market, for which the liquidity-adjusted VaR is estimated as the product of the daily market VaR times the square root of 10.

In order to show the behavior of the VaR adjusted for liquidity, the values at the end of 3Q 2022 compared to the previous quarter are shown below.

Trading Business Unit	Liquidity-adjusted VaR	
	June 30, 2023	September 29, 2023
Money table	(51.44)	(53.92)
Treasury	(14.55)	(9.62)
Global	(53.03)	(53.05)

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

The following shows the average liquidity-adjusted Value at Risk of the monthly closings of the corresponding quarter of the different business units.

Trading Business Unit	VaR adjusted for average liquidity
	july 2023 – september 2023
Money table	(46.79)
Treasury	(12.21)
Global	(49.33)

In general, the financing needs of the Institution's loan portfolio are covered by traditional fund-raising, however, other liquidity elements are maintained if required as credit lines and the ability to issue bank paper in the market, not encountering legal, regulatory or operational limitations.

Traditional Catchment September 29, 2023	
Immediate demand deposits	42,555
Fixed term deposits	44,567
Credit Securities Issued	-
Capture without movements	112
Total	87,244

It is important to mention that the financial desks use a financing strategy via repurchase of direct positions, except for those securities that remain in order to maintain an adequate level of liquid assets.

Liquidity risk management is executed in the Treasury and Risk Management areas.

The Treasury area performs daily monitoring of current and future liquidity requirements, taking the necessary steps to ensure that the necessary resources are available. On the other hand, the Risk Management area performs liquidity risk analysis by analyzing liquidity gaps and repricing, as well as the effects on the structural balance of possible adverse scenarios. Both areas have a constant coordination.

To monitor the various risks to which the Institution is exposed, in particular liquidity risk, it has an organizational structure the following decision-making areas and bodies participate in:

- The Treasury area as the one in charge of managing resources.
- The Risk Management area as the area in charge of monitoring and reporting to the Risk Policy Committee on liquidity risk measurements and stress tests, as well as reporting to the Board of Directors on compliance with the established limits by said Council.
- The Assets and Liabilities Committee is in charge of monitoring the balance sheet and proposing balance management strategies, as well as authorizing hedging strategies.
- The Risk Policies Committee is in charge of approving risk measurement methodologies, stress test scenarios, risk monitoring and, where appropriate, establishing courses of action.
- The Board of Directors establishes the maximum tolerance to the risks to which the Institution is exposed, as well as authorizing contingency action plans in case of requiring liquidity.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

As mentioned before, the Treasury and Risks areas generate reports that are distributed and presented to the Committees in charge of liquidity risk management, such as cash flow gaps, repricing gaps, stress test analysis and uptake compared to portfolio structure.

The bank's liquidity strategy is based mainly on two main objectives, the first is to maintain an amount of liquid assets that is significantly higher than the bank's liquidity needs and; the second is to extend the term of its collection. With the foregoing, all its clients and counterparties are guaranteed compliance with the commitments assumed by the bank.

The bank's centralized financing strategy is based on traditional deposits through the commercial network. With this strategy, fund-raising generates greater diversification and stability. The bank has significant incentives to generate higher deposits, particularly in terms of term. Our network has been increased to be able to penetrate with new clients in different geographical areas, deconcentrating our clients. In addition to the above, there are sources of financing in the formal market, as they have ample credit lines.

The monitoring of the different indicators mitigates the liquidity risk since these indicators induce the diversification of the deposits, to extend the term of the same, increase the liquid assets and punish the concentration both in term and in clients and the reduction of the liquid assets.

Stress tests consist of applying scenarios where there are situations that could be adverse for the Institution and thus being able to verify the Institution's capacity to face the realization of said scenarios. In the particular case of liquidity risk, scenarios are made based on variables characteristic of financial crises that affect the liquidity of banks in general. This evidence is presented to the Risk Policy Committee on a monthly basis for analysis. The variables used to build adverse scenarios are overdue portfolio, interest rates and sources of financing, mainly.

In accordance with the regulations applicable to credit institutions, the Institution has liquidity contingency plans in case situations arise that could affect the Institution. These plans contain the functions of the personnel who would participate in the necessary actions, the authorization levels and the required information flow. The aforementioned actions are specifically identified and designed to generate liquidity, considering the Bank's structure for this purpose and are divided according to the severity of possible scenarios.

Appendix 11:

CERTIFICATE

Mr. Mario Alberto Chapa Martinez, as in my official capacity as the Pro-Secretary of the Board of Directors of **Banca Afirme S.A., Institución de Banca Múltiple, Afirme Grupo Financiero**, I hereby provide the formal certification for the purpose of general decisions regarding liquidity requirements for multiple banking institutions. At the board of Directors meeting held on October 24, 2023, the Board of Directors of the aforementioned institution determined that the following entities, which are members of Afirme Grupo Financiero, are eligible to receive support up to the respective amounts indicated in the following table:

Entities Denomination	Financial Amount	Type of Operation
Arrendadora Afirme, SA de CV SOFOM	\$2,000	Line of credit derived from a contract with a term.
Factoraje Afirme SA de CV SOFOM	\$500	Line of credit derived from a contract with a term.
Almacenadora Afirme SA de CV Organización Auxiliar de Crédito	\$3,190	Line of credit derived from a contract with a term.
Seguros Afirme	\$25	CCC for time deposits and overdrafts.
Banco de Inversión Afirme SA de CV Institución de Banca Múltiple	\$6,850	Call Money Line

Furthermore, the Board of Directors determined that, due to the nature of the financial entities within the Financial Group, the following financial entities shall be consolidated for the calculation of the coefficients, as listed in the table below:

Entities Denomination	Financial Amount
Arrendadora Afirme, SA de CV SOFOM	\$2,000
Factoraje Afirme SA de CV SOFOM	\$1,000

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

As a result of this determination, the Board of Directors hereby states that there is no explicit or implicit commitment, and it is not foreseen to provide financial support by the Institution to the financial entities within the Group that have not been included in the aforementioned list, in the event that they face an adverse liquidity scenario. This includes the provision of financing or engaging in buy-sell transactions with said financial entities, when such operations could have a negative impact on the liquidity position of the Institution itself.

Sincerely,

[Signature]

Mr. Mario Alberto Chapa Martínez

Pro-Secretary of the Board of Directors

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Derivatives

Derivatives are used for balance sheet management, that is, to achieve stability and balance in terms of financial risks. This implies the assurance of minimum (objective) levels of margin, with a consequent release of capital requirements, hedging can be executed with two approaches, either accounting or economic:

- Hedging is understood as derivatives that are directly linked to assets or liabilities, called primary position, these derivatives offset the effects of market variables in the primary position. The compensation must be such that it meets the criteria established in the applicable regulations, which establish the minimum and maximum percentages of compensation to be considered as hedges, which is called efficiency. When derivatives are considered hedging, they have a different accounting treatment.
- On the other hand, derivatives can be made for trading purposes (*Trading*), for which it must adhere to the risk limits established by the Risk Committee, as well as the Business Plan that is approved annually by the Risk Committee, in which the qualitative and quantitative goals of the operation of these instruments are established. These operations can be used as hedges, although they are not recorded as such, since they are not directly linked to assets and liabilities, but they are contrary to what is intended to be hedged, in such a way that, in the event of a movement in the market variables, the compensation generated by the derivatives does not necessarily meet the criteria established in the regulations, but they have the opposite effect, reducing the effects on the primary position.

Specific objectives include:

- Reduce repricing risks in the case of positions funded at market rates, but with a different review than the review of loans granted.
- Risk reduction and determination of margins in credit positions granted at fixed rates and funded in the market at variable rates.
- Cost reduction and use of special conditions by achieving assets and liabilities in currencies other than those used in the primary position of operations.
- Reduce the duration gaps for the portfolio of assets and liabilities with rigorous market valuation.
- Reduction of capital requirements in positions subject to determining fixed margins, with the consequent use of alternative business opportunities.

The Institution has contemplated the use of financial instruments called *swaps*, either interest rate or foreign currency. These operations are subject to different risks including:

- Interest rate market risk, mainly to the TIIE reference curve.
- Market risk of foreign interest rates, if there were exchange rate operations, there would be an exposure to the reference curve of the underlying currency.
- Exchange rate market risk.
- Credit risk due to default of counterparties.

The instruments traded in the Institution are mainly interest rate *swaps* referenced to the TIIE as well as referenced to foreign currencies. When these instruments are used for hedging purposes, a strategy is developed to better replicate the flows, terms and amounts of the asset or liability to be hedged, so that the hedging strategy is a mirror of the hedging object. All hedging operations are authorized by a Committee with

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

powers for this purpose, in addition the strategy is analyzed in a particular way by the decision-making staff that are members of the Committee. The negotiation of the hedging operations is carried out through the quotation, with the authorized counterparties, of the operations with the particular characteristics of each operation (once approved by the corresponding Committee) that is intended to be hedged and is accepted or not depending on the conditions market. On the other hand, the negotiation of *trading* operations is the quotation with the counterparties of the standard conditions of the operations by observing the quotations of the *brokers* in the market.

Currently, Banca AFIRME operates in the domestic over-the-counter (OTC) market for these instruments and the eligible counterparties are only domestic or foreign banking institutions with which it has ISDA contracts (local or international) and with which it has granted a line of credit to the Institution. In addition, as of December 2016, the Institution has operations in the Derivatives Exchange associated with Asigna, the clearinghouse that acts as the central counterparty. Currently, trading with clients or brokerage firms is not allowed.

In the case of derivatives that are operated through the over-the-counter market, Banca AFIRME agrees with each counterpart who would be the calculation agent, usually it is agreed that the calculation agent is the counterparty with which the operations are carried out, which which is documented in the framework contracts signed with the counterparties, although the valuations reported by the counterparties are monitored and in the event that relevant differences arise, there are procedures established in the same contracts to determine the corresponding valuation. These procedures even contemplate making quotes with third parties.

With the counterparties, margin calls are contemplated in the guarantee contracts in order to reduce exposure to credit risk and in particular; In OTC markets, the counterparties with which they are traded are analyzed and a line of credit is granted.

Contracts are signed in which the counterparties are obliged to make margin calls, in said contracts the types of admissible guarantees are established. These guarantees include cash and government financial instruments to which a discount established in the contracts would be applied depending on their term. In the entire period of time, the margin calls have been made in cash, therefore, no discounts have been made.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

For all trading positions, the market risk value is measured under the historical VaR methodology. Global limits are established on this VaR, for the *Trading* portfolio and for the derivatives portfolio. For the *trading* and derivatives portfolio, the limits are authorized by the Risk Committee. The hedging derivatives are not part of these portfolios and as they are managed in a particular way, compared to the assets or liabilities that are hedged, they are not subject to the market risk limits mentioned above.

The Institution has established internal controls regarding the operation, documentation and management of derivative instruments. In terms of operation and documentation, there are procedures aligned with the applicable regulations, in particular with the 31 requirements of the Bank of Mexico, as well as with sound market practices.

Regarding the risk management of these instruments, there are VaR, sensitivity, counterparty and *stop loss* limits, in order to monitor the operation of these instruments in a timely manner. All limits are applicable to positions classified as trading and in the case of counterparty risk, they are consolidated with hedging operations. In the event that there is any excess to the established limits, these are reported to the corresponding officials and decision-making bodies for the preparation of the corresponding actions. The transactional system has the aforementioned limits implemented, so monitoring is continuous.

The positions, results, risk measures and monitoring of the limits are included in the daily reports issued by the UAIR, and said report is sent to the operating personnel, as well as to Senior Management. Procedures are continuously reviewed internally and annually by a third party within the process of auditing the 31 requirements of the Bank of Mexico.

The operation of derivatives at the Institution was authorized by the Board of Directors, and it is the Risk Committee that annually authorizes the business plan related to these instruments in which the goals, objectives, and use of derivatives are documented.

The valuation of interest rate *swaps* is performed through the projection of the cash flows of each instrument and the sum of the present values of each of the projected flows is calculated. To perform the projection, the method of *forward* rates is used, for which the interest rate curves published by the price provider are considered. Valuation by this method assumes no arbitrage.

The valuation of foreign currency *swaps* is performed by calculating the present value of the projected cash flows in each currency and corresponding rate.

The valuation of financial instruments is performed daily and internally in the Institution's transactional system.

When it comes to hedging instruments, it is necessary to monitor hedging efficiency. This efficiency is determined at least quarterly and two types of efficiency are generated, retrospective and prospective. The method depends on whether the hedge is fair value or cash flow. In all cases, for it to be considered efficient, the efficiency indicators must be between 80% and 125%.

If the hedge is of fair value: the retrospective efficiency is calculated by comparing the ratio of the change observed in the valuation of the derivative and the change observed in the valuation of the hedged asset; while the prospective one projects valuation scenarios with the simulation of rates that generate changes in the present value of the future flows of the hedging derivative against the changes in the present value of the future flows of the primary position. With the data series, the correlation coefficient (R-squared) and the sign of the independent variable of a linear regression are determined to determine its compensation capacity.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

If the hedge is cash flow: the retrospective efficiency is calculated by verifying the ratio of the flows realized in the hedged position and the cash flows observed in the *swap* ; while the prospective one uses the fair value method to the accumulated changes to the future flows of the variable leg of the hedging instrument against the future flows of the primary position, valued with the rates of simulated scenarios.

Currently all hedging derivatives are within the established ranges to continue to be considered as hedging derivatives.

Our internal sources of funding are mainly our stable clients, which give us the ability to meet any requirement related to derivative operations, these clients allow us to have a current liquidity greater than 26,500 million that more than cover any liquidity risk, including derivative operations. In addition to the above, we have extensive external capacities with lines exceeding 15,000 million of which currently only 1,500 million are used.

With the above, we can conclude that Banca Afirme has a very adequate liquidity to face periods of liquidity requirements, including the needs for derivative operations.

During the quarter, no significant changes were observed in the exposure to the main risks previously mentioned.

The underlying asset to which we were exposed during the third quarter of 2023 was the Interbank Interest Rate (TIIE), which has daily movements according to the market's own movements. However, these changes did not generate new relevant obligations or affect the liquidity of the Institution.

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

Next, the impact obtained on Cash Flow at the end of 3Q 2023 is presented:

	Amount
Interest paid	8,219
Interest charged	67,890
Interest to pay	27,559
Net effect	32,112

Amounts in thousands of pesos

The following table shows the impact on Results by Derivative Valuation for Q3 2023:

	Balance June 2023	Balance September 2023	Quarter effect
Trading swaps	- 38,206	-31,995	6,211
Hedging swaps	21,240	17,942	-3,298
Hat	-	-	-

Amounts in thousands of pesos

During this quarter, 4 interest rate *swap* operations matured, 30 derivative financial instrument operations were carried out.

The comparison between the counterpart exposure and the guarantees received is performed on a daily basis; and in the event that a differential greater than the threshold (*Threshold*) and the rounded figures agreed with each counterpart is detected, the margin call is made. This process is generated continuously generating various margin calls during the quarter. These margin calls have been made both in favor of the counterparties and in favor of the Institution and at all times the calls have been covered in cash so there is no additional exposure to market risk. In addition, the credit risk of the counterparty (cva) and that of the entity itself (dva) are calculated on a daily basis.

There have been no breaches in the contracts related to these instruments.

At the end of the quarter, there were the following derivative operations in which guarantee contracts with the counterparties were contemplated:

Summary of Derivative Financial Instruments								
Figures in thousands of pesos as of September 29, 2023								
Derivative type	End	Notional	Asset value		Fair value		Maturity amounts	
			Current quarter	Previous quarter	Current quarter	Previous quarter	2023	Later
SWAP TIIE	Coverage	9,725,868	11.50	11.50	370,271	- 30,888	-	9,725,868
TIIE SWAP	Negotiation	51,300,000	11.50	11.50	2,338	- 391	26,300,000	25,000,000
SWAP TIIE *	Negotiation	300,000	11.50	11.50	- 2,413	- 5,897	300,000	-

* *Affirm takes short position, in the rest of the trades takes long position. Fair value considers the value per cva and dva.*

Considering the implemented methodology, the sensitivity of the *Trading* portfolio is calculated assuming a parallel change in the interest rates in all the curves that intervene in the valuation of the instruments. These

Notes on the Consolidated Financial Statements (figures in Millions of pesos)

movements cause the value of the derivatives to change and depending on the net position you have, it will result in a profit or a loss.

Derivative Rate Sensitivity				
Figures in thousands of pesos as of September 29, 2023				
25 BP ^{1/}	50 PB	100 PB	150 PB	200 PB
23,444	46,887	93,774	140,662	187,549

^{1/} PB: base points

The hedging efficiency measures have been kept within the efficiency levels because the hedging instruments used in the hedging strategies seek to replicate the cash flow structure, so these strategies efficiently protect the hedged positions before changes in the risk factors that affect, either in the valuation or in the cash flows. It is important to mention that the efficiency methodology does not consider the margin of credit positions and deposits as inefficiency since it is precisely what it is desired to cover. Considering the above, under stressful situations with significant fluctuations in risk factors, acceptable coverage levels will continue to be maintained.
